1 PLINA-RF Token Issuance & Compliance Configuration on Stellar Testnet Pendente
Semana 1 · 0/5 evidências enviadas

Issue the PLINA-RF asset on Stellar testnet with AUTH_CLAWBACK_ENABLED, AUTH_REQUIRED, and AUTH_REVOCABLE flags configured. Set up issuer and distribution accounts. Document each flag's policy and demonstrate clawback execution on testnet. Publish all account addresses and transaction hashes on Stellar Expert.

2 Investor-Side Hypothesis Validation — Institutional Investor Outreach & Letter of Intent Campaign
Pendente
Semana 2 · 0/4 evidências enviadas

Map and approach a minimum of 10 qualified institutional investors: family offices, LATAM fund managers, and international fintechs with exposure to emerging market credit. Conduct direct outreach conversations (calls, video meetings, or written exchanges) presenting the PLINA-RF product, collecting feedback on ticket size, allocation intent, and compliance requirements. Target at least 1 signed Letter of Intent (LOI) or written expression of interest. Document all conversations and produce a written validation report.

3 Seller Origination Flow Prototype — Digital Intake, Price Logic & Simulated Pix Disbursement
Pendente
Semana 3 · 0/4 evidências enviadas

Build a functional seller intake prototype: a digital form collecting quota details, a price offer calculation engine (applying discount based on term, consortium administrator, and

yield curve inputs), and a simulated Pix disbursement confirmation screen. The prototype will be demo-ready and documented, simulating the full seller journey from submission to payment notification.
